PLANTATION

Since Cambodia has excellent climatic conditions suitable for several field crops such as sugarcane, rice, tapioca, beans, as well as rubber trees and oil palm.

L.Y.P Group's Chub Rubber Plantation is the biggest plantation producing highest outputs in Cambodia, to which ISO 9001 standard has been awarded. With its long history since 1920s, Chub has been maintaining its incomparable outputs and cultivating areas of more than 17,720 hectares.

L.Y.P Group has gradually engaged into agro-industry since 2006 in the following mega projects.

- ❖ Investing in Sugar Cane Plantation with 1600 HT land size.

▲ Participating in major equity of the integrated facilities of a 6,000 TCD and a 16 MW
