Preface

The Annual Report on Power Sector of the Kingdom of Cambodia 2016 Edition is compiled from informations for the year 2015 available with EAC and received from licensees, MME and other organizations in the power sector. The data received from some licensees may not be up to the required level of accuracy and hence the information provided in this report may be taken as indicative.

This report is for dissemination to the Royal Government, institutions, investors and public desirous to know about the situation of the power sector of the Kingdom of Cambodia during the year 2015.

With addition of more HV transmission system and MV sub-transmission system, more and more licensees are getting connected to the grid supply and expanding their area of supply. This has resulted in supply to more consumers and improvement in quality of supply. By end of 2015, almost 99% of the consumers are connected to the grid system. More licensees are now supplying electricity for 24 hours a day. The grid supply has reduced the cost of supply and consequently the tariff for supply to consumers. Due to lower cost and other measures taken by Royal Government of Cambodia, in 2015 there has been a substantial increase in the number of consumers availing electricity supply. As reported by the licensees, the number of consumers by end of 2015 is 1,859,205; which is almost 30 % higher than the number reported in 2014. From 2014, Time of Use tariff for MV consumers of EDC connected to National Grid has been introduced on an optional basis.

Any comments or suggestions from Royal Government, institutions, investors or public to improve the Annual Report published by EAC are welcome and will be considered by EAC to publish more useful reports in future reflecting the actual situation of the sector.

EAC expects that this report will be a valuable document for the information for the year 2015 on the power sector of the Kingdom of Cambodia.

Basic Laws and Regulations for Management of Power Sector in the Kingdom of Cambodia

CHAPTER 1

Basic Laws and Regulations for Management of Power Sector in the Kingdom of Cambodia

1.1 Electricity Law of the Kingdom of Cambodia

The Electricity Law of the Kingdom of Cambodia was adopted by National Assembly on November 06, 2000 at the plenary session No.5 of term 2, and agreed by the Senate on the form and content of the law on December 13, 2000 at the plenary session No.4 of term 1 and announced to be consistent with the Constitution by the Constitutional Council on January 15, 2001. The Law was finally promulgated by ROYAL DECREE No. NS/RKM/0201/03 dated February 02, 2001 by Preah Bath Samdech Preah Norodom Sihanouk, King of Cambodia. The Electricity Law of the Kingdom of Cambodia has been amended first in 2007 and again in 2015. The purpose of this law is to govern and to prepare a framework for the electric power supply and services throughout the Kingdom of Cambodia. This law covers all activities related to supply of electricity, provision of services and use of electricity and other associated activities of power sector.

In preparation of a framework for the electric power supply and services throughout the Kingdom of Cambodia, the Law provides for the establishment of “Electricity Authority of Cambodia” (EAC), a legal public entity, being granted the right by the Royal Government to be an autonomous agency to regulate the power sector in the Kingdom of Cambodia.

The Electricity Law provides that the Electricity Authority of Cambodia shall consist of three Members, including the Chairman. The Chairman and Members shall be designated and proposed by the Prime Minister and shall be appointed by Royal KRET. Each Member shall have a 3 (three) year term, which shall be staggered so that the term of the initial members shall expire at different times.

As per the Electricity Law of the Kingdom of Cambodia, “no person may operate as an electric power utility or provide electric power services unless he/she has performed under and in accordance with the terms of a valid license issued by EAC.

Regulations, orders and decisions issued by EAC are enforceable as per the Electricity Law. EAC is competent to file complaints in the courts of the Kingdom of Cambodia for any violation of the Electricity Law or the regulations, orders, decisions as well as licenses issued by EAC.

The Law also provides for the rights, obligations and penalty on the service providers as well as the consumers in order to establish fair condition in the business and the use of electricity.

1.2 Responsibilities of Ministry of Mines and Energy and Electricity Authority of Cambodia in Power sector

Article 3 of the Electricity Law of the Kingdom of Cambodia defines the responsibility of Ministry of Mines and Energy and Electricity Authority of Cambodia (EAC) separately. As per the provisions of this article, after EAC has started its operation, the governing of the power sector in the Kingdom of Cambodia shall be bifurcated, 1-the Ministry of Mines and Energy shall be responsible for setting and administrating the government policies, strategies and planning in the power sector and 2-the Electricity Authority of Cambodia shall ensure that the provision of services and the use of electricity shall be performed efficiently, qualitatively, sustain ably and in a transparent manner.

The Ministry of Mines and Energy, through its duty for setting and administering the government policies, strategies and planning in the power sector, is the institution of the Royal Government to chalk out the path that the power sector in the Kingdom of Cambodia is going to take. This institution is also responsible for setting the technical standards for the power sector.

EAC is responsible to issue rules, regulations and procedures and to monitor, guide, coordinate the operators in power sector, both suppliers and consumers, including requiring them to follow the policy and guidelines and technical standards issued by Ministry of Mines and Energy. EAC has to ensure that the provision of services and the use of electricity shall be performed efficiently, qualitatively, sustainably and in a transparent manner.

The roles of the two organizations in governing power sector in the Kingdom of Cambodia as provided in the Electricity Law of the Kingdom of Cambodia is shown in the following diagram:

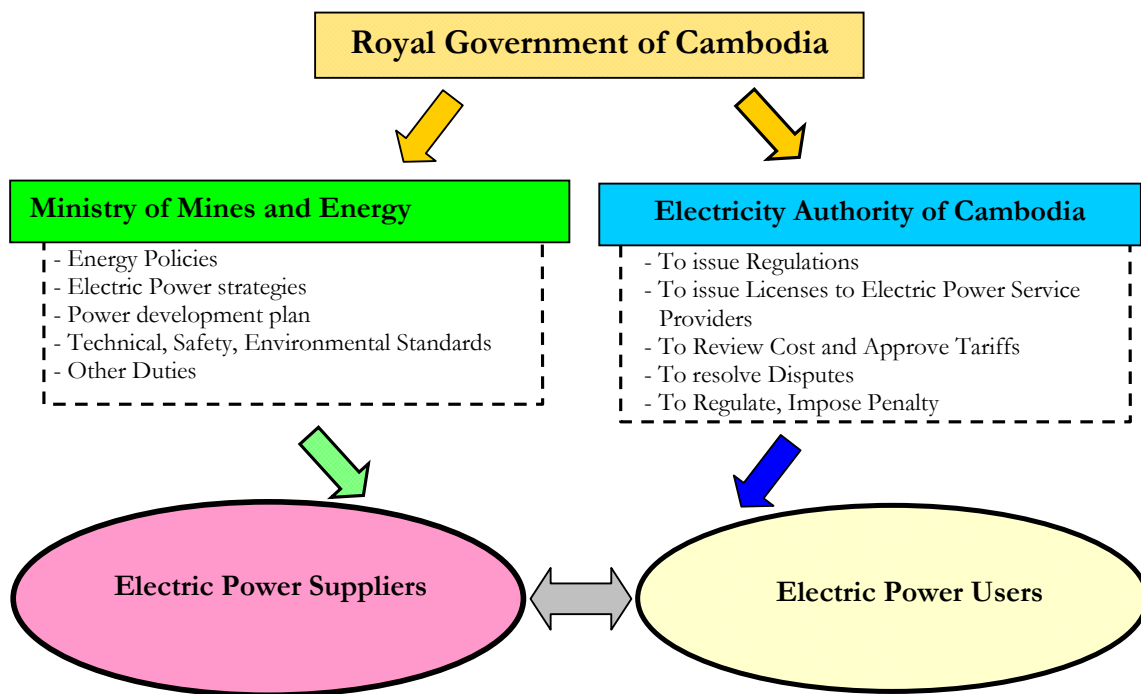

Figure 1: Separation of role between MME and EAC

1.3 Duties of the Electricity Authority of Cambodia in the Power sector

1.3.1 Regulation of the Electric Power Services

Electricity Law of the Kingdom of Cambodia has granted the right and autonomy to EAC to regulate the activities relating to Electric Power Services in order to ensure that the services and the business of the electric power service providers are actually carried out efficiently, qualitatively, sustainably and in a transparent manner. Granting of the right to EAC to regulate these services does not mean that Law has provided for EAC to get involved in or to manage the internal business of the electric power service providers; but it allows EAC to advise, guide or direct the service provider, to modify or cease such activity which affects the service being performed efficiently, qualitatively, sustainable and in a transparent manner. The guiding action or direction to revise or cease any activity is to be carried out in public interest and to protect the interest of the consumers.

1.3.2 Governance of relation between Delivery, Receiving and Use of Electricity

The relation between Delivery, Receiving and Use of Electricity means the relations between generators and transmitters, between generators and distributors, between transmitters and distributors or between suppliers and consumers. These relations relate only to the cycle of delivery, receiving and use of electricity. The relations can cover the conditions of delivery and receiving electric power services between above parties; the obligations and rights of the above parties in delivery and receiving electric power services; the cost of electric power services that one party pays to the other party; the quality of electric power services that one party provides to other parties etc.

1.3.3 Powers and Duties of Electricity Authority of Cambodia

According to the Article 7 of Electricity Law of the Kingdom of Cambodia, EAC has the following powers and duties:

- (a) To issue, revise, suspend, revoke or deny the licenses for the provision of electric power services as provided in article 29 of the Law;
- (b) To approve tariff rates and charges and terms and conditions of electric power services of licensees, except where the Authority consider those rates or charges and terms and conditions are established pursuant to a competitive, market-based process;
- (c) To enforce regulations, procedures and standards for investment programs by licensees;
- (d) To review the financial activities and corporate organization structure of licensees to the extent that these activities and organization directly affect the operation of the power sector and the efficiency of electricity supply;
- (e) To approve and enforce the performance standards for licensees;
- (f) To evaluate and resolve consumer complaints and contract disputes involving licensees, to the extent that the complaints and disputes relate to the violation of the conditions of license;
- (g) To approve and enforce a uniform system of accounts for all licensees;
- (h) To prepare and publish reports of power sector and relevant information received from licensees for the benefit of the Government and the public;
- (i) To prescribe fees applicable to licensees;
- (j) To determine the procedures for informing the public about its activities within its duties, in order to ensure that the Electricity Authority of Cambodia complies with the principle of transparency as set forth in Article 3 of this law;
- (k) To issue rules and regulations and to make appropriate orders, and to issue temporary and permanent injunction for electric power services;
- (l) To impose monetary penalty, disconnect power supply, suspend or revoke the license for the violations of this Law, standards and regulations of the Electricity Authority of Cambodia;
- (m) To require the electric power service providers and the consumers to obey the rules relating to the national energy security, economic, environmental and other Government policies;
- (n) To perform any other function incidental or consequential to any of the duties as describes above; and
- (o) To establish the terms and conditions of employment of the officers or employees including experts/advisors of Electricity Authority of Cambodia.

1.3.4 Legal Documents for Governing and Regulating Electric Power Services and use of Electricity

The types of Legal Documents for governing and regulating electric power services and use of electricity in the Kingdom of Cambodia are classified in Table 1 below:

Table 1: Legal Documents for Regulating Electric Power Services and use of Electricity

1 Law	The Electricity Law of the Kingdom of Cambodia and other Laws to manage and regulate the power sector. Laws are main documents in regulating all activities in power sector and also the main base for preparation of other legal documents needed for managing and regulating the power sector.
2 Legal Documents of Government Class	Sub-Decree, Decision, Notification etc. of the Royal Government. These documents are for determining the power sector policy and for regulating the activities in power sector and are issued by the Royal Government under the provisions of the Electricity Law. The main principles of the power sector, which are not defined in the Law, can also be issued for application as a standard document of the Royal Government.
3 Legal Documents of Ministry Class	Declaration (Prakas) and Decisions of the Ministry of Mines and Energy. These are the documents for managing the works, which are under the duties of Ministry of Mines and Energy such as policy, development, planning, strategy, technical standards and other determinations in power sector such as: <ul style="list-style-type: none"> - Investments in the rehabilitation and development of power sector in the short, medium and long term; - Restructuring, private sector participation and privatization of Public Utilities; - Promotion of the use of indigenous energy resources in the generation of electricity; - Planning and agreements on the export and import of electricity; - Subsidies to specific classes of customers and priorities regarding consumers of electricity; - Promotion of efficiency in generation, transmission, distribution and consumption of electricity and action taken to create a Comprehensive Electricity Conservation Program for Cambodia; and - Electricity sector emergency and energy security strategies.
4 Legal Documents of EAC	Licenses, regulations, procedures and decisions of Electricity Authority of Cambodia, which are issued by EAC under the framework of the Electricity Law. These documents are for managing and regulating the electric power services and the use of electricity in the Kingdom of Cambodia.

The legal documents prepared and put into force for managing and regulating the provision of services and use of electricity in the Kingdom of Cambodia up to the end of the year 2015 are shown in the table 2 below:

Information on Electricity Authority of Cambodia – the Regulator for the Power Sector in the Kingdom of Cambodia

CHAPTER 2
Information on Electricity Authority of Cambodia –
the Regulator for the Power Sector in the Kingdom of Cambodia

2.1 Regulator in Power Sector

According to the Electricity Law, the Electricity Authority of Cambodia (EAC) shall consist of 3 (three) members. The members of EAC shall be designated and proposed by the Prime Minister and shall be appointed by the Royal KRET. The members of EAC during 2015 are as follows:

1. **H.E. Dr. Ty Norin**, Chairman
2. **H.E. Hul Kunnak Vuth**, First Vice-Chairman
3. **H.E. Sam Oeun Kim Hoeun**, Second Vice-Chairman

2.2 Organization of Electricity Authority of Cambodia

As provided by Electricity Law, EAC shall have one secretariat for assistance. This secretariat shall be headed by an Executive Director. The Executive Director shall be appointed by Chairman of EAC after consultation with other members.

The highest authorities of EAC are the three regulators i.e. the chairman of EAC and the two vice-chairmen. Under the chairman and vice-chairmen, there is one secretariat headed by the executive director. Secretariat provides support to EAC for administrative and technical works and controlling the specialized departments under it. The secretariat has six departments and two office units. The departments of the secretariat are 1 – Department of Administration and Personnel, which is in charge of administration and works relating to personnel in the employment of EAC; 2 – Department of Legislation, which is in charge of Legal works, resolution of disputes and imposition of fines; 3 – Department of Accounting and Finance, which is in charge of finance, License fees and accounts works; 4 – Department of Tariff and Monitoring of Licensees' accounts, which is in charge of monitoring and approval of tariffs of licensees for sale of electricity and monitoring of the accounts of licensees to assess the cost of supply; 5 - Department of Supply and Consumer Affairs, which is in charge of works relating to supply of electricity by Distribution licensees and consumer affairs; 6 – Department of Generation, Transmission and Sub-transmission – which is incharge of works relating to generation licences and transmission licenses for both transmission and sub-transmission. The two office units work directly under the Executive Director and are 1-Data management and dissemination office, which is in charge of works relating to consolidation of data and information collected from all departments of the secretariat and responsible for managing and disseminating the information to the public; and 2-Procurement Unit, which works under Committee for pre evaluation and assessment of contracts to optimize price of facilities and services, is responsible for planning and procedure for procurement and reviews costs to propose expenditurebudget for purchases, supplies and services.

The organization structure of EAC is as shown in the schematic diagram given below.

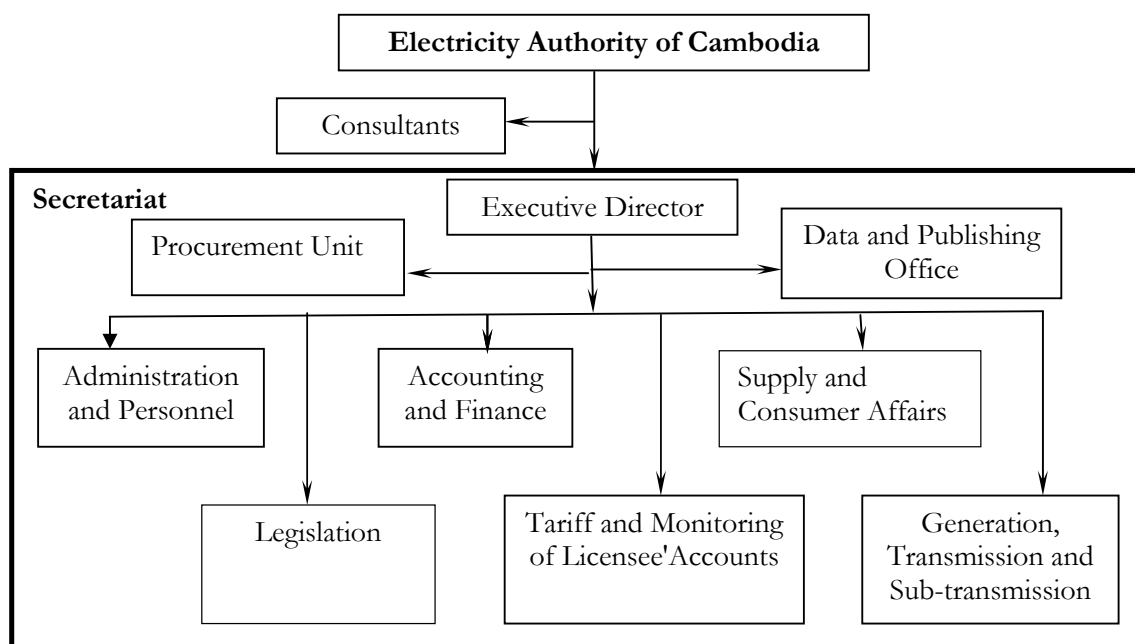

Figure 2: Organization chart of EAC

2.3 The Budget of EAC and License Fees

The Electricity Authority of Cambodia is an autonomous agency working for the interest of all electric power service providers and electricity users in the Kingdom of Cambodia. Therefore the expenditure of EAC for its operation is to be borne by all electric power service providers in the form of payment of license fees. Article 27 of the Electricity Law provides that EAC shall have an autonomous budget for its operation. This budget shall come through License Fees paid by applicants and licensees as determined by EAC. For governing the license fees charged by EAC, The Electricity Law has further provisions that “The maximum license fees are to be determined by a Sub-Decree of the Royal Government”.

Under the provisions of the Electricity Law of the Kingdom of Cambodia, the Royal Government have issued sub-decree No. 131-OR-N-KR/BK dated December 27, 2001 determining the maximum license fees applicable to the electric power service providers in the Kingdom of Cambodia.

According to Electricity Law, EAC shall determine the rate of the license fees to be paid by the licensees every year based on the maximum license fees determined by the sub-decree. For the year 2015, EAC has determined the license fees to be paid by licensees vide Notification No. 082-SR-15-EAC Dated March 16, 2016; which reduced the rate of license fee for some types of licenses. The license fees determined for the years 2014 and 2015 are given in Table 3 below.

2.4 Financial Statements of EAC

The Electricity Law provides that the annual financial statement, together with the accounting books of the Authority and related records shall be audited by auditor and inspected by the National Audit Authority. Within 1 (one) month after auditing, the Authority shall submit all reports to the Prime Minister for approval, and shall publish the approved reports to the public. The audited income statement of Electricity Authority of Cambodia for the years 2013 and 2014 is given below.

Information on Licenses and Licensees in the Kingdom of Cambodia

CHAPTER 3

Information on Licenses and Licensees in the Kingdom of Cambodia

3.1 Licenses for Providing Electric Power Services

As per the provisions of the Electricity Law, each electricity service provider is required to have a license issued by EAC and to abide by the provisions of the Electricity Law, its license, and regulations and procedures issued by EAC. A License authorizes the licensee to provide electric power services as per the provisions stated in the license (called the Conditions of License). A license has two main parts:

- a. Decision to grant the right to provide the electric power service, and
- b. Conditions of license.

Types of licenses that can be issued and regulated by EAC are stated below:

1. **The Generation License:** It grants the right to generate electric power from specified generation facilities.
2. **The Transmission License:** It grants the right to provide transmission service. There are 2 types of Transmission License: National Transmission License and Special Purpose Transmission License.
 - i. **The National Transmission License** can be issued only to state power transmission company which is under the Government control, to have the right to provide the transmission service for delivering the electric power to the distribution companies and bulk power consumers throughout the Kingdom of Cambodia
 - ii. **The Special Purpose Transmission License** grants the right to construct, own, and operate specified transmission facilities in the Kingdom of Cambodia for the specified purpose.
3. **The Distribution License:** It grants the right to provide the electricity distribution services in a determined contiguous territory.
4. **The Consolidated License:** It is a license, which may be the combination of some or all types of licenses. The Consolidated License can be issued to EDC and to the isolated systems to grant the right to generate, transmit, dispatch, distribute and sale electric power to the consumers. In issuing Consolidate License, EAC shall consider long term planning and the objectives of Government policy to reduce long run marginal cost for supply of electricity to consumers, establish a national grid and progressively expand this grid throughout Kingdom of Cambodia.
5. **The Dispatch License:** It grants the right to control, manage, and operate the dispatch facilities for facilitating delivery and receiving electricity from the generation, transmission and distribution systems.
6. **The Bulk Sale License:** It grants the right to buy electricity from any Generation Licensee or from the power systems of neighboring countries for sale to Distribution Licensees or to large customers in one connected power system.

7. **The Retail License:** It grants the right to engage in the sale of electric power to consumers in a contiguous service territory.
8. **The Subcontract License:** It grants the right to provide electric power services according to the subcontract agreement with the existing licensee.

3.2 Licenses issued, revoked and type changed during 2015

The number of licenses issued, revoked and valid during the year 2015 is given in the Table below.

Table5: Type and Number of Licenses issued and valid

No.	Type of License Issued	Licenses valid at end of 2014	Issued during 2015	Revoked during 2015	Change of type during 2015	Valid at end of 2015
1	Consolidated License consisting of Generation, Distribution and National Transmission Licenses	1				1
2	Generation License	21		1		20
3	Special Purpose Transmission License	7				7
4	Consolidated License consisting of Special Purpose Transmission and Distribution Licenses	7	2			9
5	Distribution License	139	10	3	+21	167
6	Retail License	4	1			5
7	Consolidated License consisting of Generation and Distribution Licenses	181	2	5	-21	157
	TOTAL	360	15	9		366

The Generation License issued to Cambodia Utilities Pte Ltd (002L) was terminated on expiry of the term of the power purchase agreement and the assets were transferred to Electricite Du Cambodge. The Consolidated Licenses consisting of Generation and Distribution licenses of Mrs. Nhek Theary (056L) and Mr. Chea Channaroeun (140L) were terminated on transfer of their electricity business to Mekong Smart Power Co., Ltd. (023L). Similarly the Consolidated Licenses consisting of Generation and Distribution licenses of Electricity Tramkhnar (064L), of Mrs Yeab Mey (285L) and of Mr. Thay Sothun (314L) were terminated on transfer of their electricity business to Phsar Thnal Bort Electricity Enterprise (101L), to Electricity Kang Meas Enterprise (165L), and to Mr. Kong Vun (111L) respectively. The Distribution Licenses of Mrs. Chao Nuy (077L), Mr. Thom Thoeurn (079L) and Mr. Sok Vitith (080L) were terminated on transfer of their electricity business to TNNT Electricity Co., Ltd. (105L).

During 2015, the Consolidate license consisting of Generation and Distribution licenses issued to the following licensees were changed to Distribution License:

1. Mekong Smart Power Co., Ltd (License No.023L)
2. Mr. Mak Heat (License No. 040L)
3. Mr. Ty Sokun (T.S.K.) Electricity Co., Ltd (License No. 041L)

4. Mr. Chin Sohin (License No. 057L)
5. Mr. Nop Bin (license No. 069L)
6. Mr. Pak Sun Heng (License No. 078L)
7. Mrs Chan Simoly (License No. 095L)
8. Mr. Un Sophal (License No. 096L)
9. Electricity Kang Meas Enterprise (License No. 165L)
10. Mrs. Meas Keav (License No. 183L)
11. Mr. Saeu Tiengkok (License No. 228L)
12. Mr. Kong Yorn (License No. 269L)
13. Mr. Chea Sovannara (License No. 273)
14. Mr. Koy Mach (License No. 275)
15. Mr. Ou Bunly (License No. 278)
16. Mrs. Sou Rong (License No. 286)
17. Mr. Eng Bhunty (License No. 287)
18. Mr. Seng Kry (License No. 292)
19. Mr. Ngov Lyhour (License No. 309)
20. Mr. Thov Ny (License No. 339)
21. Mrs. Eng Kal Yan (License No. 356)

Electricite Du Cambodge (EDC) is the only licensee in the Public Sector, all other licensees being in private sector.

Province wise area of supply served by Consolidated Licensees, Distribution Licensees and Retail Licensees are given in **Annex 1**. In case a licensee is connected to a grid supply, the Annexure 1 shows the name of the Grid and for licensees with isolated operation, the annexure shows the normal hours of supply for the licensee.

Maps of Provinces of Cambodia showing the location of the licensed area of supply up to end of 2015 is given separately in this report.

3.3 Revision of Licenses

Licenses are revised from time to time, as required, for various reasons. During 2015, the revisions were for extension of area of supply - 53 licenses, reduction of area of supply - 14 licenses, extension of term of the license – 62 licenses, change of ownership- 15 licenses, change/addition of certificate of incorporation – 8 licenses, Change of generation capacity – 1 license and change of type of license – 21 licenses.

3.4 Licenses during the decade

EAC issued the first license in February 2002. The types of license issued during the initial years were (i) Consolidate License consisting of Generation, National Transmission and Distribution License (issued to EDC), (ii) Generation License, (iii) Distribution License and (iv) Consolidate License consisting of Generation and Distribution License. The first Retail License was issued in July 2006. With the construction of 115 kV transmission line from Thai border to Banteay Meanchey, Battambang and Siem Reap in the private sector, the first Special Purpose Transmission License was issued in February 2007. With the development of subtransmission system and expansion of distribution to new areas Consolidate license consisting of Special Purpose Transmission and Distribution License were issued, and the first such license was issued in June 2008. The number of licenses valid at the end of each year during 2006-2015 is given in the following Table:

Table 6: Number of different types of Licenses valid during the decade

3.5 Efforts of Government of Cambodia, Rural Electrification Fund and EAC to assist licensees

In 2013, the Ministry of Industry, Mines and Energy was divided into two ministries – (i) Ministry of Industry and Handicrafts and (ii) Ministry of Mines and Energy. The electricity sector is under the Ministry of Mines and Energy.

The annual licensee meet for the year 2015 was organized by EAC on 18th January 2016. The meet was attended by H.E. the Minister of the Ministry of Mines and Energy, representatives from the Ministry of Mines and Energy, Municipalities, Provincial Departments of Mines and Energy, EDC Headquarters and branches in Provinces and REF, Licensees, Consumers of electricity, and members and staff of EAC. This was the 14th Annual Meeting since EAC started functioning in 2001. EAC released and distributed a booklet on “The main developments in the Electricity Sector in Cambodia till 2015”.

During the meet, the Chairman EAC explained the roles and duties of the four players for the electricity sector – i. Ministry of Mines and Energy, ii. Electricity Authority of Cambodia, iii. The licensees and iv. The consumers. He further explained the contents of the booklet on “The main developments in the Electricity Sector in Cambodia till 2015”. The booklet contains information graphically and in tables on generation, transmission, sub-transmission, distribution, number of villages in licensed area, number of villages electrified, number of households provided with electricity, tariff etc.

The Chairman EAC, then clarified the position on the four pressing problems raised by consumers during 2015 as follows: (1) Interruption in power supply – The interruption to power supply is caused due to shutdown taken for repair, extension of infrastructure, by natural causes like storm, high wind, landslide etc, due to insufficient availability of electric power, and due to long radial lines. (2) Inaccurate meters – In many cases the consumer thinks that the meter is inaccurate, whereas actually the electricity use varies due to seasonal variation or other causes and in many cases the meter is inaccurate beyond the permissible limits. EAC provides meter testing at site. It is necessary to provide independent testing laboratories in Phnom Penh and provinces. (3) Private investment in electricity sector – Private investment is necessary for rapid development of the electricity sector. (4) Problem in the provision of service by licensee – The licensee should follow the decision of EAC.

During the meet H.E. Minister of Mines and Energy described the policy and strategy of the Royal Government of Cambodia for the development of the electricity sector as follows:

- (i) To keep the balance between supply and demand of electricity – The capacity of generation plant and network should be sufficient to meet the demand and have reasonable reserve capacity. The investment for construction of power plants should be planned to meet the demand and have a reserve capacity of about 25%. The capacity of transmission network should be sufficient to meet the load demand and should avoid redundant network.
- (ii) To extend the area of supply from the National Grid – To develop electricity network to cover the area throughout Cambodia as quickly as possible. At present 95% of villages are covered by the licensed area of state-owned licensee and private licensees and supply is available in 66% of the villages. Electric supply to the balance licensed area is to be provided as quickly as possible.
- (iii) Facilitate provision of electricity in rural area and use by the poor – Promote implementation of programs of REF to extend the electricity supply to more rural areas and to provide subsidy to make it possible for the poor to get electric connection and use electricity.
- (iv) To improve the quality of supply – To encourage the licensee to follow the standards and regulations to improve the quality, sustainability, and safety of supply. EAC is required to monitor the performance of licensees.
- (v) Subsidized tariff for the poor – The tariff of all licensees will be reviewed and determined at cost plus 10 % profit on capital. The tariff for consumption less than 10 kWh/month will be reduced to 480 Riels/kWh in March 2016. The difference in the calculated tariff and subsidized tariff will be reimbursed to the licensee as subsidy.

During 2012, Rural Electrification Fund (REF), which till then was working as an independent organization, was transferred to the control of EDC. During 2015, REF has carried out the following programs:

(i) Power to the Poor (P2P) Program

The purpose of this program is to facilitate the poor households in rural areas to have access to electricity for their houses from grid supply by providing interest free loan to meet (i)- costs for the connection fees of the licensee, (ii)- costs for deposit to be deposited with the licensee, (iii)- costs for purchase of materials and labor for the installation of wires from the connection point to its house, and (iv)- costs for purchase of materials and labor for the installation of in-house wiring. The loan is disbursed through the licensee who is responsible to pay back to REF by collecting from the Borrower in easy monthly installments within a specific period. The maximum amount of this loan is 480,000 Riels per household. During 2015; 1,164 households in 102 villages were benefited under this program.

(ii) Program for Providing Assistance to Develop Electricity Infrastructure in Rural Areas

The purpose of this program is to facilitate the licensee in rural areas to access fund for investing on expansion of electricity supply infrastructure to fully cover its authorized distribution area in order to allow all rural households in the licensed area have access to electricity for use. The criterion for implementation of this program is formulated for three different types of areas considering the density of population as follows:

Area No. 1 - Area with high density of population having economic efficiency: REF will provide the guarantee on loan borrowed by the licensee from banks for investment on expansion of electricity infrastructure in rural areas to fully cover its authorized distribution area.

Area No. 2 - Area with medium density of population, where doing electricity business may not be profitable if the licensee has to pay interest on the investment capital: REF will provide interest free assistance for investment on electricity infrastructure in rural areas.

Area No. 3 - Area with low density of population, where doing electricity business is not viable unless part of the infrastructure cost is provided as grant: REF will provide part of the infrastructure cost as grant and part of the cost as interest free assistance for investment on electricity infrastructure in rural areas.

During 2015, REF has executed 106 contracts for providing assistance to develop electricity infrastructure in rural areas with 84 licensees under program for Area No.2. The length of the network, villages covered in different provinces under the program by licensees during 2015 is given in the following Table.

Generation, Import and Transmission

CHAPTER 4

Generation, Import and Transmission

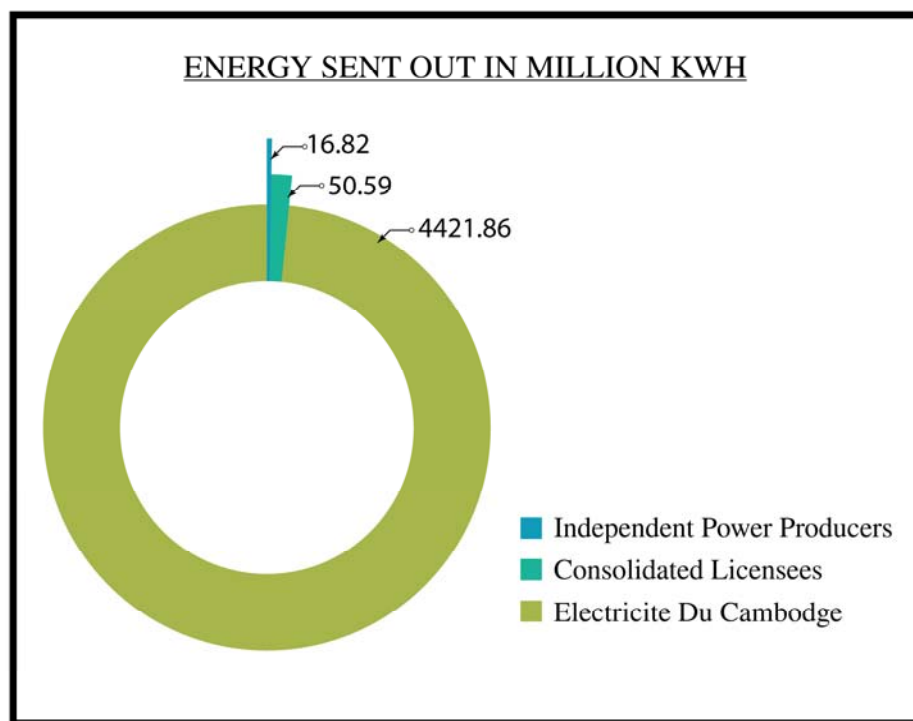

4.1 Generation in Cambodia

4.1.1 Generation by Type of License

Two types of licensees generate electricity in the Kingdom of Cambodia. Independent Power Producers having generation license generate and sell electricity to suppliers or industries in compliance with the Power Purchase Agreement with that supplier or industry; and Consolidated Licensees, having generation license as one of its licenses, generate electricity for supply to consumers through their distribution system.

The information on operation of generation system by Generation Licensees, Electricite du Cambodge and Isolated systems operated by Consolidated Licensees is given in **Annex 3**, **Annex 4** and **Annex 5** respectively. The summary information about installed capacity and energy sent out by the Independent Power Producers, EDC and Consolidated licensees is given in **Annex 2(b)**.

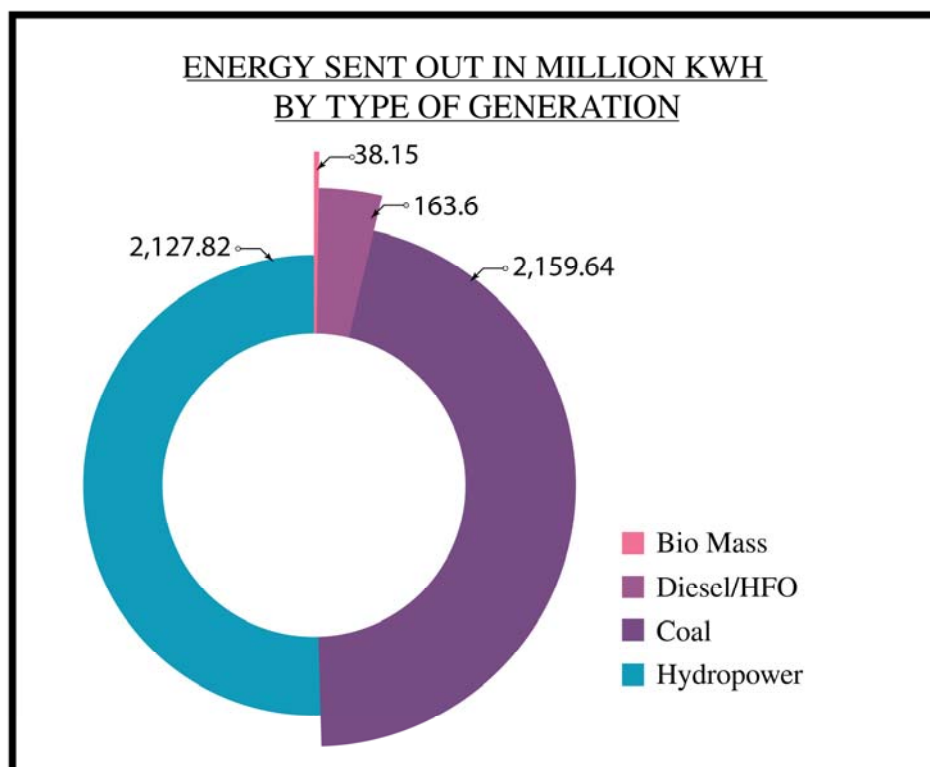

The total energy generated and sent out by licensees in Cambodia during 2015 is 4,489.27 GWh, which is 46.79 % more than the energy sent out during 2014. The quantum of energy sent-out by the Independent Power Producers, Consolidated licensees and EDC is shown in the graphic given below:

4.1.2 Generation by Type of Generation Facilities

Electricity generation facilities in the Kingdom of Cambodia for the year 2015 can be divided into 4 types: 1 - Hydropower Plants, 2 - Diesel power Plants, 3- Thermal Power Plants using coal and 4 – Plants using wood and other biomass. The major power plant capacity added during 2015 is second unit of capacity 135 MW to the Coal Power Plant of C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd in Sihanoukville. During 2015 the following Hydropower Plants were in operation – Kirirom1, Kirirom 3, Kamchay, Stung Atay, Lower Stung Russei Chrum and Stung Tatay connected to the National Grid, Ratanakiri and O Chum connected to Ratanakiri power system of EDC, and Mondulkiri connected to Mondulkiri power system of EDC. SL Garment Processing (Cambodia) Ltd, supplying part of its generation to EDC Phnom Penh, Angkor Bio Cogen Co., Ltd, Phnom Penh Sugar Co., Ltd, IED Invest (Cambodia) and Cam Chilbo Electric Power Co., Ltd use wood, agricultural products or waste as fuel for generation of electricity. Sovanna Phum Investment Co., Ltd, connected to the Phnom Penh System, Cambodia Energy Limited, and C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd connected to National Grid, use coal to generate electricity. All other power plants of the licensees are diesel power plants using Heavy Fuel Oil (HFO) and/or Light Diesel Oil (LDO). The summary information on installed capacity and energy sent out by type of generation is given in **Annex 2(c)**. The second unit of capacity 135 MW of C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd started operation in 2015. Total electricity generation in Cambodia during 2015 was 4,489.27 million kWh, compared to 3,058.36 million kWh in 2014. The electricity generated in Cambodia during 2015 is more by 46.79%, compared to electricity generation in 2014.

The quantum of energy sent-out by the Independent Power Producers, and Consolidated licensees classified by generation type is shown in the graphic given below.

4.1.3 Generation Projects under implementation and planning

Following Generation Projects are under construction and their position at the end of 2015 is stated below:

- i. Stung Tatay Hydroelectric Project: The project consists of PH with capacity of 3 x 82 MW and 230 kV line from hydroelectric plant to Ou Saom Substation. The Plant was operated in 2014 and Commercial Operation started in 2015.
- ii. 240 MW Coal Fired Power Plant in Sihanoukville: The Project consists of 2 x 120 MW (net) coal fired electric power generating facility at Sihanoukville. The first unit of the project was commissioned in 2014 and the second unit is commissioned in 2015.
- iii. 135 MW Coal Fired Power Plant in Sihanoukville: The Project consists of 1 x 135 MW coal fired electric power generating facility at Sihanoukville. The project is being implemented by C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd. PPA has been signed with EDC. The project is scheduled to be commissioned in 2017.
- iv. Se San Hydroelectric Project: PPA has been signed between EDC and Hydro Power Lower Sesan 2 Co., Ltd on 26 November 2012. The plant is proposed to have 8 units of 50 MW each.
- v. Stung Cheay areng Hydroelectric Project: Feasibility study has been done. The proposed capacity is 3x36 MW.
- vi. Prek Laang Hydroelectric Project: Pre-feasibility study has been done. The proposed capacity of the plant is 90 MW.

4.2 Energy Imported from Neighboring Countries

Cambodia imports electricity from Thailand, Vietnam and Laos. The import from Vietnam is at 22 kV through a number of connections and at 230 kV through Vietnam – Takeo - Phnom Penh 230 kV line. Similarly import from Thailand is at 22 kV through a number of connections and at 115 kV through Thailand - Banteay Meanchey - Battambang and Siem Reap line. The import from Laos is at 22 kV to Steung Treng and Preah Vihear area.

Based on the Electricity Trade Agreement between Ministry of Mines and Energy of Cambodia with the Ministry of Industry of Vietnam, EDC has signed Power Purchase Agreements with Vietnam Power No.2 for import of electricity at a number of points for supply of electricity to areas located near the Cambodia – Vietnam border either by themselves or through other licensees.

Some private companies have received the right from MME to purchase electricity from Provincial Electricity Authority of Thailand for supply to areas near Cambodia – Thai border. Cost of electricity imported from Thailand at 22 kV is based on two-part time of use tariff of Provincial Electricity Authority of Thailand applicable for the category of consumer. The tariff has demand charges (Baht per kilowatt of maximum demand), energy charges (Baht per kWh with different rates for energy drawn during peak and off-peak hours), service charges (fixed charge as Baht per month), power factor penalty (Baht per excess KVAR) and Ft (change in expenses charge in Baht/kWh). Because of such tariff structure, the cost of electricity varies in different months due to different use conditions. The tariff for import by EDC at 115 kV from Thailand consists of energy charge as Baht per kWh and Ft (change in expenses charge in Baht/kWh). EDC imports electricity from Laos at 22 kV for supply to Steung Treng and Preah Vihear area.

The details of import from neighboring countries are given in Annex 5 A to 5 E.

4.3 Electricity Transmission

4.3.1 High Voltage System in Cambodia

During the year 2015 the following high voltage lines and substations were commissioned.

- (i) 115 kV line from Kampot to Chhouk and substation at Chhouk
- (ii) 115 kV line from Steung Hav substation to Sihanouk city substation and Sihanouk City substation

The details of high voltage grid substations (GS) operated by different licensees at the end of 2014 is stated in the following table.

4.3.2 High Voltage Lines under implementation

Following Transmission Line Projects are under construction and their position at the end of 2015 is stated below:

- i. 230 kV transmissionline from Kampong Cham to Kratie with substations at Kampong Cham and Kratie. The transmission line project is being implemented by Diamond Power Ltd and is likely to be commissioned in 2017.
- ii. 230 kV transmission line from Kratie to Steung Treng with substation at Steung Treng. The transmission line project is being implemented by EDC and is likely to be commissioned in 2017.
- iii. 230 kV transmission line from Steung Hav substation to Phnom Penh. The transmission line project is being implemented by Alex Corporation Co., Ltd and is likely to be commissioned in 2017.
- iv. 115 kV transmission line from GS 7 (SPP) to GS Prey Veng to GS Bavet. The transmission line project is being implemented by EDC and is likely to be commissioned in 2017.

4.4 Operation of the High Voltage Grid System

The High Voltage Grid System, comprising of all high voltage lines and connectd grid substations, is termed as "National Grid". Apart from generation plant in Cambodia, the National Grid gets electricity supply from Vietnam at 230 kV and from Thailand at 115 kV. As it is not possible to run the supply from Vietnam in parallel with Supply from Thailand, the two systems are not operated in parallel, but many areas receive supply from either source at different times. With increased generation from Hydropower stations, the availability of supply improves in rainy season and supply from Phnom Penh area is extended upto Siemreap substation for some time during rainy season. Similarly during dry season supply from Thailand is extended up to part of Phnom Penh system. The supply from National Grid coveres areas in the provinces of Takeo, Kampot, Sihanouk Ville, Phnom Penh, Kandal, Kampong Speu, Kampong Chhanang, Pursat, Battambang, Banteay Meanchey, Siem Reap, Kampong Cham, Kampong Thom, Prey Veng, Koh Kong, Kratie and Tbong Khmum.

The licensees connected to National Grid and the details of the supply in 2015 are given in annexe 5 B.

CHAPTER 5

Report on Sub-Transmission and Supply of Electricity

5.1 Development of Medium Voltage Lines

On development of the high voltage grid system in Cambodia, medium voltage lines have been constructed from the grid substations to supply power to licensees and consumers in areas around the Grid Substations. Medium voltage lines have also been extended from many locations near borders of Vietnam, Thailand and Laos, where power is being imported by licensees at MV. In the last few years EDC and other licensees have played a major role in developing medium voltage lines for both purposes of sub-transmission and distribution. The Transmission Licensee and Special Purpose Transmission Licensees operating medium voltage lines are listed in the following Table:

The Consolidate Licensees having Special Purpose Transmission License and Distribution License operating medium voltage lines are listed in the following Table:

Table 11: Consolidate Licensees operating Sub-Transmission Lines

License No.	Name of Licensee	MV lines operated in Provinces
085 L	Electricity Tbong Khmum Enterprise	Tbong Khmum
122 L	Electricity Development and Construction Company	Kampong Cham, Tbong Khmum
220L	Electricity Skun-Chamkaleu Enterprise	Kampong Cham
223 L	L.M.K. Co., Ltd	Kandal, Takeo
224 L	Sokha Electricity Co., Ltd	Kampong Speu, Kandal
259 L	Inter BP Solution Corporation	Prey Veng
300 L	OSVR Trading Co., Ltd	Kampong Chhanang

The length of MV lines operated by different licensees at the end of 2015 is given in Annexe 5.

EDC, with loans arranged from different sources is constructing new MV lines to extend the grid supply to more areas. Other licensees are also constructing new MV lines to avail grid supply, extend their area of supply or to improve the power supply in their area of operation.

5.2 Grid Supply Systems

Apart from the supply from the grid-substations of the National Grid, MV supply is made available at a number of areas along the border with Vietnam, Thailand and Laos by extension of 22 kV lines from Vietnam Grid, Thai Grid and Laos Grid. This has resulted in the development of four grid systems in Cambodia as described below;

1. National Grid: The MV lines connected to the National Grid provide electric power supply in areas around the Grid substations. Such supply is available in Phnom Penh and the provinces of Kandal, Kampong Speu, Takeo, Kampot, Kep, Sihanoukville, Koh Kong, Kampong Cham, Tbong Khmum, Kampong Thom, Prey Veng, Kratie, Pailin, Banteay Meanchey, Battambang, Siem Reap, Oddor Meanchey, Preah Vihear, Pursat and Kampong Chhnang. The details of the licensees connected to the National Grid are given in Annex 5 B.
2. MV Grid connected to Vietnam system: Cambodia imports electricity from Vietnam through 22 kV connections at 18 locations in the provinces of Kampong Cham, Svay Rieng, Kampot, Mondulkiri, Kandal, Takeo, Kratie, Prey Veng and Ratanakiri. The supply is then extended to other licensees.
The details of the licensees connected to the Vietnam Grid at Medium Voltage are given in Annex 5 C.
3. MV Grid connected to Thailand system: Cambodia imports electricity from Thailand through 22 kV connections at 8 locations in the provinces of Battambang, Pailin, Banteay Meanchey, Koh Kong and Oddor Meanchey. The supply is then extended to other licensees. The details of the licensees connected to the Thai Grid at Medium Voltage are given in Annex 5 D.
4. MV Grid connected to Lao system: EDC imports power from Laos to supply to Steung Treng and Preah Vihear areas. The details of the licensees connected to the Lao Grid at Medium Voltage are given in Annex 5 E.

With the expansion of the four grid systems, many areas can get supply from more than one system. In fact, during 2015, many areas have got supply from more than one system during different periods of the year.

Two Generation Licensees (i) Kampot Power Plant Co., Ltd and (ii) Angkor Bio Cogen Co., Ltd supply to captive industries Kampot Cement Co., Ltd and Angkor Kasekam Roongroeng Co., Ltd respectively.

5.3 Isolated Supply Systems

The rest of supply systems in Cambodia are isolated systems each consisting of its own generation and supplying a small area generally belonging to one licensee. The information on number of consumers, energy available and supplied to consumers for these isolated systems is given in Annex 5F. The provincewise consolidated data for the isolated systems is given in the following Table. The area of supply of a few licensees exists in two contiguous provinces and in these cases the province wise data has been estimated or assumed.

5.4 Supply of Electricity to consumers

Each year the infrastructure for supply of electricity to consumers and the number of villages supplied with electricity gets added up due to issue of new licenses, expansion of area of supply and expansion of the grid supply. The detail of MV lines and LV lines of licensees is given in Annex 5. The total number of villages and number of villages covered by the licensed area by end of 2015 in each province is given in Annexure 8.

A comparison of data on electricity Generation, Import from neighboring countries by licensees and data on consumers and consumption by them for Cambodia for the years 2014 and 2015 is given in the Table below.

Chapter 6

Electricity Tariff of Licensees

CHAPTER 6

Electricity Tariff of Licensees

6.1 Electricity Tariff

The cost of electricity either from own generation or from purchase from IPP, neighboring country or other licensees is the single largest component of the cost of electric supply by licensees to the consumers. Hence the tariff of a licensee for supply to consumers is dependent on the cost of electricity generated or purchased. With the development of grid system, the tariff of licensees purchasing electricity from the grid has become stable. The tariff for consumers is determined based on the cost of electricity purchased and the cost of distribution. The tariff is changed when the cost of purchase of electricity or cost of distribution changes. For the licensees generating electricity using Diesel/HFO, the cost of electric supply is related to the cost of Diesel/HFO. In order to quickly reflect the change in the cost of fuel in the tariff for consumers in a simple and transparent manner, EAC implements Fuel Cost Adjustment (FCA) mechanism stated in a table. Under this mechanism, the tariff for different slab rates of fuel (diesel/HFO) is determined after public consultation, so that for only a change in the cost of fuel, the corresponding tariff is fixed by EAC without the need of further public consultation.

6.2.2 Electricity Tariff approved by EAC

In Session No. 274 held on 25 February 2015, the tariff of EDC Sihanoukville for sale to licensees in Kohkong at MV was reduced to 0.129 USD/kWh. Consequently the tariff of sale to consumers at LV by these licensees was reduced to 1,000 Riels/kWh. In the same session, the tariff of EDC Siem Reap for sale to licensees at MV was reduced to 0.151 USD/kWh. Consequently the

tariff for sale to consumers of these licensees and other licensees purchasing electricity from these licensees was reduced to 1,150 Riels/kWh.

In Session No. 276 held on 27 April 2015, the bulk sale tariff (for sale to other licensees) of EDC (in Phnom Penh, Kandal, Kampong Speu, Takeo, Kampot, Sihanoukville and Siem Reap provinces), Akissni Keansvay Co. Ltd (150L), TPLC Holdings Ltd (252L), Sokha Electricity Co., Ltd (224L), Meng Sokleng Construction & Electric Co., Ltd (137L), L.M.K.Co., Ltd (223L), Khmer Electricity Service Co., Ltd (151L) was reduced to 0.151 USD/kWh (for sale at MV), 0.156 USD/kWh (for sale at MV with metering on LV side of transformer), and 0.166 USD/kWh (for sale at LV). Consequently the tariff for sale to consumers of these licensees and other licensees purchasing electricity from these licensees was reduced to 1,000 Riels/kWh

In Session No. 278 held on 27 May 2015, the bulk sale tariff (for sale to other licensees) of EDC (in Pursat, Battambang, Kampong Cham, Prey Veng, Banteay Meanchey and Svay Rieng provinces), and some Special Purpose Transmission Licensee and other licensees was reduced. Consequently the tariff for sale to consumers at LV of these licensees and other licensees purchasing electricity from these licensees was reduced to 1,050 Riels/kWh.

In Session No. 280 held on 28 July 2015, the tariff of licensees Electricity Saang Enterprise (086L), Khmer Electricity Services Co., Ltd (151L) and TNDN Electricity Enterprise (071L) was reduced to 900 Riels/kWh for general consumers at LV, 0.1725 USD/kWh for industry at MV and 0.18 USD/kWh for industry connected at MV and metering on LV.

In Session No. 281 held on 25 August 2015, the bulk sale tariff (for sale to other licensees) of EDC (in Tbong Khmum, Kratie, Steung Treng and Monduliri provinces) was reduced. Consequently the tariff for sale to consumers at LV of these licensees purchasing electricity from EDC was reduced to 1,050 Riels/kWh.

In Session No. 284 held on 23 September 2015, the tariff of L.Y.P. Group Co., Ltd (014L) for supply in Kokong Province was refixed as 6 Baht/kWh for supply at LV and 5.8 Baht/kWh for supply at MV.

In Session No. 287 held on 18 November 2015, the transmission charge for sale of electricity to industries at 22 kV and 35 kV by EDC through import from Vietnam in Svay Rieng and Bavet cities of Svay Rieng Province, Pohnea Krek and Memot Districts of Tbong Khumum Province, Snoul District of Kratie Province, Keosyma District of Monduliri Province, Banglung City of Ratanakiri Province, and Kampong Trach District of Kampot Province is fixed as follows:

MV metering with customer providing the meter	0.039USD/kWh
LV metering with customer providing the meter	0.045USD/kWh

The tariff for consumers of each licensee monthwise is provided in Annex 7.

6.3 Time of Use tariff for EDC

In the 267th Session held on 28 August 2014, EAC approved a Time of Use (TOU) tariff for MV consumers of EDC getting supply from the National Grid. The Time of Use tariff is optional, which means it will be applicable at the option of the MV consumer. The TOU tariff approved is given in the table below:

Table 16: Time of Use Tariff for MV consumers of EDC

Applicable to MV Consumers	Tariff	
	Time of use from 7:00 to 21:00	Time of use from 21:00 to 7:00
Connected at MV to Grid Substation of National Grid	13.90 US Cents/kWh	9.50 US Cents/kWh
Connected at MV to sub-transmission line of National Grid	17.90 US Cents/kWh	14.00 US Cents/kWh
Connected at MV to sub-transmission line of Phnom Penh System	19.00 US Cents/kWh	15.00 US Cents/kWh
Connected at MV to Substation of Phnom Penh System	17.50 US Cents/kWh	13.50 US Cents/kWh

6.4 Tariff of EDC during 2015

6.4.1 Tariff of EDC for Supply to Licensees and HV and MV Consumers supplied from National Grid

Tariff of EDC for Supply to Licensees and HV and MV Consumers supplied from Phnom Penh National Grid as approved by EAC is given in the following Table:

Table 17: Tariff of EDC for supply at HV and MV from National Grid

Type of Connection	Condition	Electricity Tariff, USD/kWh
Grid Tariff for bulk sale outside the distribution area of EDC	Connection at High Voltage from Grid Substation	0.1270
	Connection at Medium Voltage from Grid Substation	0.1290
Connection by Licensee from MV feeder of EDC getting supply from National Grid	Licensee having MV line to supply points at a distance of more than 20 km	0.1380
	Licensee having MV line to supply points at a distance of more than 15 km	0.1430
	Licensee having MV line to supply points at a distance of more than 8 km	0.1480
	For other Licensee not in the above categories	0.1510 (from April)
Connection by Consumers from MV feeder of EDC getting supply from National Grid outside the area of Distribution of EDC	MV consumers outside the distribution area of EDC but connected to the internal supply system for a city or provincial town	Tariff for MV consumer of that city or town
	MV consumers outside the distribution area of EDC and not connected to the internal supply system for a city or provincial town	0.1680

6.4.2 Tariff of EDC for Phnom Penh, Kandal Province and Provincial Town of Kampong Speu

The electricity tariff of EDC for Phnom Penh and Kandal Province and for Provincial Town of Kampong Speu up to billing month of December 2014 is given in the Tables below.

Table 18: Tariff of EDC for Phnom Penh, Kandal Province and Provincial Town of Kampong Speu

Category of Consumer	Electricity Tariff, Riels/kWh	Condition
Domestic in Phnom Penh and Takhmao Town of Kandal Province	610	All kWh if monthly consumption does not exceed 50 kWh
